## Cancer Registry of Instituto Português de Oncologia do Porto Francisco Gentil, E.P.E

First published: 01/02/2024

Last updated: 05/12/2024

Data source

Human

**Disease registry** 

### Administrative details

### Administrative details

#### **Data source ID**

1111146

### **Data source acronym**

IPO-Porto Cancer Registry

#### **Data holder**

Instituto Português de Oncologia do Porto (IPO-PORTO)

#### Data source type

Disease registry

### Main financial support

Funding by own institution

National, regional, or municipal public funding

### Care setting

Hospital inpatient care

Hospital outpatient care

### **Data source qualification**

If the data source has successfully undergone a formal qualification process (e.g., from the EMA, ISO or other certifications), this should be described.

No

### **Data source website**

https://ipoporto.pt/eu-cidadao/registo-oncologico-regional-do-norte/

### Contact details

Maria José Bento mjbento@ipoporto.min-saude.pt

mjbento@ipoporto.min-saude.pt

### Data source regions and languages

#### **Data source countries**

Portugal

#### **Data source languages**

Portuguese

### **Data source regions**

Aveiro

Braga

Bragança

Porto

Viana do Castelo

Vila Real

Viseu

### Data source establishment

#### Data source established

15/06/2012

### **Data source time span**

First collection: 15/06/2012

The date when data started to be collected or extracted.

### **Publications**

### Data source publications

Morais S, Antunes L, Rodrigues J, Fontes F, Bento MJ, Lunet N. The impact of the COVID-19 pandemic on the short-term survival of patients with cancer in Northern Portugal. Int J Cancer. 2021 Jul 15;149(2):287-296. Epub 2021 Mar 13. PMID: 33634852; PMCID: PMC8014057.

Nikšić M, Matz M, Valkov M, Marcos-Gragera R, Stiller C, Rosso S, Coleman MP, Allemani C; CONCORD Working Group. Worldwide trends in net survival from pancreatic cancer by morphological sub-type: An analysis of 1,258,329 adults diagnosed in 58 countries during 2000-2014 (CONCORD-3). Cancer Epidemiol. 2022 Oct;80:102196. Epub 2022 Jul 13. PMID: 35841761.

Comparative effectiveness of ZUMA-5 (axi-cel) vs SCHOLAR-5 external control in relapsed/refractory follicular lymphoma. Blood. 2022 Aug 25;140(8):851-860. PMID: 35679476.

Soares M, Antunes L, Redondo P, Borges M, Hermans R, Patel D, Grimson F, Munro R, Chaib C, Lacoin L, Daumont M, Penrod JR, O'Donnell JC, Bento MJ, Gonçalves FR. Treatment and outcomes for early non-small-cell lung cancer: a retrospective analysis of a Portuguese hospital database. Lung Cancer Manag. 2021 Feb 19;10(2):LMT46. PMID: 34084212; PMCID: PMC8162184.

### Data elements collected

# The data source contains the following information

#### **Disease information**

Does the data source collect information with a focus on a specific disease? This might be a patient registry or other similar initiatives.

Yes

### Disease details (other)

Cancer patient demographics, tumor (cancer) characteristics, diagnosisis, treatment, and outcomes.

#### Rare diseases

Pregnancy and/or neonates Does the data source collect information on pregnant women and/or neonatal subpopulation (under 28 days of age)? Yes  Hospital admission and/or discharge No  ICU admission s information on intensive care unit admission available? No  Cause of death Captured  Cause of death vocabulary Other  Prescriptions of medicines Not Captured  Dispensing of medicines Captured  Dispensing vocabulary	people in 10,000.
Copes the data source collect information on pregnant women and/or neonatal subpopulation (under 28 days of age)?  Yes  Hospital admission and/or discharge  No  ICU admission s information on intensive care unit admission available?  No  Cause of death Captured  Cause of death vocabulary Other  Prescriptions of medicines Not Captured  Dispensing of medicines Captured  Dispensing vocabulary	Yes
Copes the data source collect information on pregnant women and/or neonatal subpopulation (under 28 days of age)?  Yes  Hospital admission and/or discharge  No  ICU admission s information on intensive care unit admission available?  No  Cause of death Captured  Cause of death vocabulary Other  Prescriptions of medicines Not Captured  Dispensing of medicines Captured  Dispensing vocabulary	Pregnancy and/or neonates
Hospital admission and/or discharge No ICU admission s information on intensive care unit admission available? No Cause of death Captured Cause of death vocabulary Other Prescriptions of medicines Not Captured Dispensing of medicines Captured Dispensing vocabulary	Does the data source collect information on pregnant women and/or neonatal subpopulation (under
Hospital admission and/or discharge No ICU admission s information on intensive care unit admission available? No Cause of death Captured Cause of death vocabulary Other Prescriptions of medicines Not Captured Dispensing of medicines Captured Dispensing vocabulary	28 days of age)?
ICU admission s information on intensive care unit admission available? No  Cause of death Captured  Cause of death vocabulary Other  Prescriptions of medicines Not Captured  Dispensing of medicines Captured  Dispensing vocabulary	Yes
ICU admission s information on intensive care unit admission available? No  Cause of death Captured  Cause of death vocabulary Other  Prescriptions of medicines Not Captured  Dispensing of medicines Captured  Dispensing vocabulary	Hospital admission and/or discharge

Not Captured  Dispensing of medicines  Captured  Dispensing vocabulary	Procerintions of modicinos
Dispensing of medicines Captured Dispensing vocabulary	
Captured  Dispensing vocabulary	Not Captured
Dispensing vocabulary	Dispensing of medicines
	Captured
	Dispensing vocabulary
	other

Are rare diseases captured? In the European Union a rare disease is one that affects no more than 5

### Dispensing vocabulary, other

Portuguese hospital drug code transposable to the ATC code

### Advanced therapy medicinal products (ATMP)

Is information on advanced therapy medicinal products included? A medicinal product for human use that is either a gene therapy medicinal product, a somatic cell therapy product or a tissue engineered products as defined in Regulation (EC) No 1394/2007 [Reg (EC) No 1394/2007 Art 1(1)].

Yes

### **Contraception**

Is information on the use of any type of contraception (oral, injectable, devices etc.) available?

Yes

#### Indication for use

Does the data source capture information on the therapeutic indication for the use of medicinal products?

Captured

### **Indication vocabulary**

Other

### Indication vocabulary, other

ICD-0-3

#### **Medical devices**

Is information on medicinal devices (e.g., pens, syringes, inhalers) available?

No

### **Administration of vaccines**

No

#### **Procedures**

Does the data source capture information on procedures (e.g., diagnostic tests, therapeutic, surgical interventions)?

Captured

### **Procedures vocabulary**

ICD-10

### **Healthcare** provider

Is information on the person providing healthcare (e.g., physician, pharmacist, specialist) available? The healthcare provider refers to individual health professionals or a health facility organisation licensed to provide health care diagnosis and treatment services including medication, surgery and medical devices.

Yes

#### **Clinical measurements**

Is information on clinical measurements (e.g., BMI, blood pressure, height) available?

Yes

#### **Genetic data**

Are data related to genotyping, genome sequencing available?

Captured

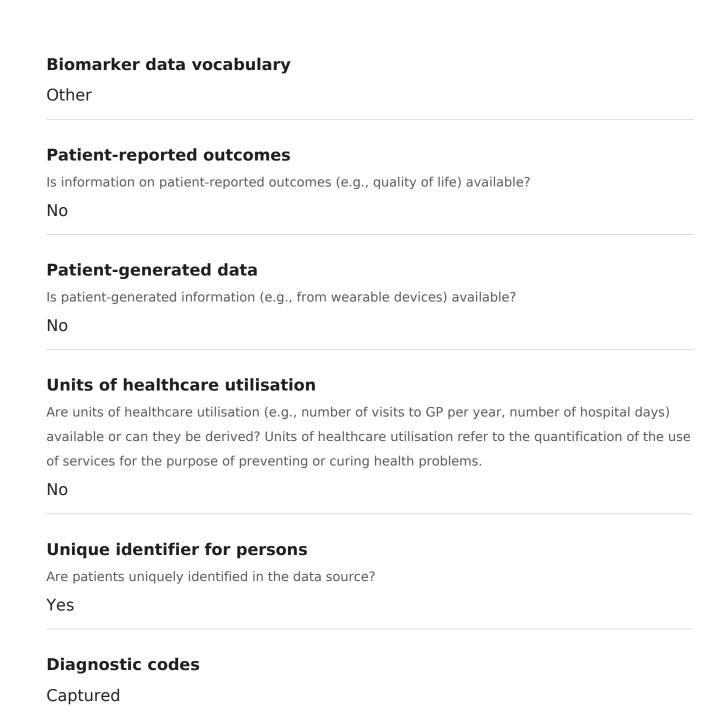

### **Genetic data vocabulary**

Other

#### **Biomarker data**

Does the data source capture biomarker information? The term "biomarker" refers to a broad subcategory of medical signs ( objective indications of medical state observed from outside the patient), which can be measured accurately and reproducibly. For example, haematological assays, infectious disease markers or metabolomic biomarkers.

### Captured

Diagnosis / medical event vocabulary

Diagnosis / medical event vocabulary, other

Other

ICD-0-3

## **Medicinal product information** Captured Medicinal product information collected Active ingredient(s) Dose Route of administration Strength Medicinal product vocabulary Other If 'other,' what vocabulary is used? Portuguese hospital drug code transposable to the ATC code **Quality of life measurements** Not Captured

### **Lifestyle factors**

Captured

### **Lifestyle factors**

Alcohol use

Tobacco use

### Sociodemographic information

Captured

### Sociodemographic information collected

Age

Country of origin

Education level

Gender

Marital status

Other

### Quantitative descriptors

### Population Qualitative Data

### Population age groups

Paediatric Population (< 18 years)

Preterm newborn infants (0 - 27 days)

Term newborn infants (0 - 27 days)

Infants and toddlers (28 days - 23 months)

Children (2 to < 12 years)

Adolescents (12 to < 18 years)

Adults (18 to < 46 years)

Adults (46 to < 65 years)

Elderly (≥ 65 years)

Adults (65 to < 75 years)

Adults (75 to < 85 years)

Adults (85 years and over)

## Estimated percentage of the population covered by the data source in the catchment area

15%

Description of the population covered by the data source in the catchment area whose data are not collected (e.g., people who are registered only for private care)

Being part of the National Health System, IPO-Porto covers the general population (public). The database is composed of all types of socioeconomic status patients.

### **Population**

### **Population size**

400000

### **Active population size**

45000

### Population by age group

Age group	Population size
Paediatric Population (< 18 years)	4000
Adults (18 to < 46 years)	40000
Adults (46 to < 65 years)	172000
Adults (65 to < 75 years)	112000
Adults (75 to < 85 years)	60000
Adults (85 years and over)	12000

### Median observation time

Median time (years) between first and last available records for unique individuals captured in the data source

10.00

Median time (years) between first and last available records for unique active individuals (alive and currently registered) capt 10.00

### Data flows and management

### Access and validation

### **Biospecimen access**

Are biospecimens available in the data source (e.g., tissue samples)?

Yes

### **Biospecimen access conditions**

Biospecimens can be accessed under the signture of a protocol approved by IPO-Porto internal review board.

### Access to subject details

Can individual patients/practitioners/practices included in the data source be contacted?

No

### **Description of data collection**

The database is updated in real-time via FHIR messages, integrating information from several IPO-Porto databases. However, this data needs to be manually curated by data managers. So, we only have validated information up

to 2020, which is the information we make available.

### Event triggering registration

### Event triggering registration of a person in the data source

Disease diagnosis

Practice registration

Start of treatment

### Event triggering de-registration of a person in the data source

Other

### Event triggering de-registration of a person in the data source, other

Patients may request to be de-registered from the IPO-Porto cancer registry

### Event triggering creation of a record in the data source

A record is created in real-time via FHIR message at the first contact of a patient with administrative service.

### Data source linkage

#### Linkage

Is the data source described created by the linkage of other data sources (prelinked data source) and/or can the data source be linked to other data source on an ad-hoc basis?

Yes

### Linkage description, pre-linked

The database is updated in real-time integrating information from several IPO-Porto databases.

### Linkage description, possible linkage

A process of linking databases real-time will be established soon.

### Linked data sources

#### Pre linked

Is the data source described created by the linkage of other data sources?

Yes

### Data source, other

Outpatient electronic health records; Inpatient hospital electronic health records; Inpatient hospital billing systems; Biobank

### Linkage variable

All data sources are linked by an internal IPO-Porto patient number.

#### Pre linked

Is the data source described created by the linkage of other data sources?

No

### Data source, other

Portuguese National Cancer Registry

#### Linkage variable

Data sources are linked by a unique cancer identification number

# Data management specifications that apply for the data source

#### **Data source refresh**

Monthly

### Informed consent for use of data for research

Other

### Possibility of data validation

Can validity of the data in the data source be verified (e.g., access to original medical charts)?

Yes

### **Data source preservation**

Are records preserved in the data source indefinitely?

Yes

### **Approval for publication**

Is an approval needed for publishing the results of a study using the data source?

Yes

### Informed consent, other

Waiver to informed consent can be requested to conduct non-intervention studies

### Common Data Model (CDM) mapping

### **CDM** mapping

Has the data source been converted (ETL-ed) to a common data model?

No
