Data source

Human

Primary care medical records

## Administrative details

### Administrative details

#### PURI

<https://redirect.ema.europa.eu/resource/1111150>

#### Data source ID

1111150

#### Data source acronym

LPD ITA

#### Data holder

[IQVIA](#)

#### Data source type

Primary care medical records

## Main financial support

Funding by own institution

Funding from industry or contract research

---

## Care setting

Primary care – GP, community pharmacist level

---

## Data source qualification

If the data source has successfully undergone a formal qualification process (e.g., from the EMA, ISO or other certifications), this should be described.

No

---

## Data source website

<https://www.iqvia.com/solutions/real-world-evidence/real-world-data-and-insights>

# Contact details

Sarah Seager

# Data source regions and languages

## Data source countries

Italy

---

## Data source languages

Italian

# Data source establishment

## Data source established

15/06/2004

---

## Data source time span

**First collection:** 01/01/2012

The date when data started to be collected or extracted.

# Publications

## Data source publications

[Analysis of Dual Combination Therapies Used in Treatment of Hypertension in a Multinational Cohort. JAMA Netw Open. 2022;5\(3\):e223877. doi:10.1001/jamanetworkopen.2022.3877.](#)

[Rates of Antipsychotic Drug Prescribing Among People Living With Dementia During the COVID-19 Pandemic. AMA Psychiatry. 2023 Mar 1;80\(3\):211-219.](#)

[Background rates of five thrombosis with thrombocytopenia syndromes of special interest for COVID -19 vaccine safety surveillance: incidence between 2017 and 2019 and patient profiles from 38.6 million people in six European countries. Pharmacoepidemiology and Drug Safety \(2022\). 10.1002/pds.5419.](#)

# Studies

## List of studies that have been conducted using the data source

[Drug Utilization Study of Thiocolchicoside \(TCC\) containing medicinal products for systemic use in France and Italy: an electronic medical records databases study](#)

## Data elements collected

The data source contains the following

## **Disease information**

Does the data source collect information with a focus on a specific disease? This might be a patient registry or other similar initiatives.

No

---

## **Rare diseases**

Are rare diseases captured? In the European Union a rare disease is one that affects no more than 5 people in 10,000.

No

---

## **Pregnancy and/or neonates**

Does the data source collect information on pregnant women and/or neonatal subpopulation (under 28 days of age)?

Yes

---

## **Hospital admission and/or discharge**

No

---

## **ICU admission**

Is information on intensive care unit admission available?

No

---

## **Cause of death**

Not Captured

---

## **Prescriptions of medicines**

Captured

---

## **Prescriptions vocabulary**

RxNorm

---

## **Dispensing of medicines**

Captured

---

## **Advanced therapy medicinal products (ATMP)**

Is information on advanced therapy medicinal products included? A medicinal product for human use that is either a gene therapy medicinal product, a somatic cell therapy product or a tissue engineered products as defined in Regulation (EC) No 1394/2007 [Reg (EC) No 1394/2007 Art 1(1)].

No

---

## **Contraception**

Is information on the use of any type of contraception (oral, injectable, devices etc.) available?

Yes

---

## **Indication for use**

Does the data source capture information on the therapeutic indication for the use of medicinal products?

Captured

---

## **Indication vocabulary**

SNOMED

---

## **Medical devices**

Is information on medicinal devices (e.g., pens, syringes, inhalers) available?

No

---

## **Administration of vaccines**

No

---

## **Procedures**

Does the data source capture information on procedures (e.g., diagnostic tests, therapeutic, surgical interventions)?

Captured

---

### **Procedures vocabulary**

SNOMED

---

### **Healthcare provider**

Is information on the person providing healthcare (e.g., physician, pharmacist, specialist) available?  
The healthcare provider refers to individual health professionals or a health facility organisation licensed to provide health care diagnosis and treatment services including medication, surgery and medical devices.

Yes

---

### **Clinical measurements**

Is information on clinical measurements (e.g., BMI, blood pressure, height) available?

Yes

---

### **Genetic data**

Are data related to genotyping, genome sequencing available?

Not Captured

---

### **Biomarker data**

Does the data source capture biomarker information? The term “biomarker” refers to a broad subcategory of medical signs ( objective indications of medical state observed from outside the patient), which can be measured accurately and reproducibly. For example, haematological assays, infectious disease markers or metabolomic biomarkers.

Captured

---

### **Biomarker data vocabulary**

Other

---

## **Biomarker vocabulary, other**

LOINC,SNOMED, Free text

---

## **Patient-reported outcomes**

Is information on patient-reported outcomes (e.g., quality of life) available?

No

---

## **Patient-generated data**

Is patient-generated information (e.g., from wearable devices) available?

Yes

---

## **Units of healthcare utilisation**

Are units of healthcare utilisation (e.g., number of visits to GP per year, number of hospital days) available or can they be derived? Units of healthcare utilisation refer to the quantification of the use of services for the purpose of preventing or curing health problems.

Yes

---

## **Unique identifier for persons**

Are patients uniquely identified in the data source?

Yes

---

## **Diagnostic codes**

Captured

---

## **Diagnosis / medical event vocabulary**

SNOMED

---

## **Medicinal product information**

Captured

---

## **Medicinal product information collected**

Active ingredient(s)

Brand name

Route of administration

Strength

---

## **Medicinal product vocabulary**

RxNorm

---

## **Quality of life measurements**

Captured

---

## **Quality of life measurements vocabulary**

Not coded (Free text)

---

## **Lifestyle factors**

Captured

---

## **Lifestyle factors**

Alcohol use

Tobacco use

---

## **Sociodemographic information**

Captured

---

## **Sociodemographic information collected**

Gender

# Quantitative descriptors

# Population Qualitative Data

## **Population age groups**

Paediatric Population (< 18 years)

Children (2 to < 12 years)

Adolescents (12 to < 18 years)

Adults (18 to < 46 years)

Adults (46 to < 65 years)

Elderly ( $\geq$  65 years)

Adults (65 to < 75 years)

Adults (75 to < 85 years)

Adults (85 years and over)

---

## **Estimated percentage of the population covered by the data source in the catchment area**

3%

---

## **Description of the population covered by the data source in the catchment area whose data are not collected (e.g., people who are registered only for private care)**

General population

## Family linkage

### **Family linkage available in the data source permanently or can be created on an ad hoc basis**

Ad hoc

## Population

**Population size**

2444955

---

**Active population size**

1034205

Population by age group

Age group	Population size	Active population size
Paediatric Population (< 18 years)	107628	40421
Children (2 to < 12 years)	20557	5814
Adolescents (12 to < 18 years)	86193	34454
Adults (18 to < 46 years)	846012	307657
Adults (46 to < 65 years)	716380	340394
Elderly (≥ 65 years)	774935	345733
Adults (65 to < 75 years)	315677	160279
Adults (75 to < 85 years)	266377	72802
Adults (85 years and over)	192881	62137

Median observation time

**Median time (years) between first and last available records for unique individuals captured in the data source**

1801.00

---

**Median time (years) between first and last available records for unique active individuals (alive and currently registered) capt**

3309.00

## Data flows and management

### Access and validation

#### **Governance details**

Documents or webpages that describe the overall governance of the data source and processes and procedures for data capture and management, data quality check and validation results (governing data access or utilisation for research purposes).

<https://www.pharmacoepi.org/resources/policies/guidelines-08027/>

#### **Biospecimen access**

Are biospecimens available in the data source (e.g., tissue samples)?

No

---

#### **Access to subject details**

Can individual patients/practitioners/practices included in the data source be contacted?

No

---

## **Description of data collection**

Anonymized patient records collected from patient management software used by GPs to document patients' clinical records

## Event triggering registration

### **Event triggering registration of a person in the data source**

Practice registration

---

### **Event triggering de-registration of a person in the data source**

Death

Emigration

Loss to follow up

Practice deregistration

---

### **Event triggering creation of a record in the data source**

Physician encounter

## Data source linkage

### **Linkage**

Is the data source described created by the linkage of other data sources (prelinked data source) and/or can the data source be linked to other data source on an ad-hoc basis?

No

## Data management specifications that apply for the data source

**Data source refresh**

Quarterly

---

**Informed consent for use of data for research**

Not Required

---

**Possibility of data validation**

Can validity of the data in the data source be verified (e.g., access to original medical charts)?

No

---

**Data source preservation**

Are records preserved in the data source indefinitely?

Yes

---

**Approval for publication**

Is an approval needed for publishing the results of a study using the data source?

No

---

**Data source last refresh**

01/09/2022

## Common Data Model (CDM) mapping

**CDM mapping**

Has the data source been converted (ETL-ed) to a common data model?

Yes

**CDM Mappings**

**CDM name**

OMOP

---

**CDM website**

<https://www.ohdsi.org/Data-standardization/>

---

**Data source ETL CDM version**

5.3.1

---

**Data source ETL frequency**

4,00 months

---

**Data source ETL status**

Completed
