No

Institution description

We are research agency that provides research services primarily to the pharmaceutical industry. We are closely affiliated to the School of Medicine at Cardiff University, however, we maintain a strict 'Chinese wall' between commercial work and non-commercial work. We have considerable experience in pharmacoepidemiology, pharmacoeconomics and outcomes research. We are highly familiar with both THIN and GPRD and we regularly use HES data too. We were awarded the 2011 ISPOR annual award for research excellence.

Institution details

Experience with collecting data directly from individual patients or respondents:

Yes

Interest in carrying out research that is funded by pharmaceutical companies:

Yes
