Institution description

The Piel Sana AEDV Foundation is a non-profit organization founded in 2007,promoted by the Spanish Academy of Dermatology (AEDV),which is the medical society to which practically all dermatologists in Spain belong. The purpose of the Foundation is to carry out and support actions that promote improvements in the health of the skin of the population. In 2012,the research unit was created to improve dermatological care and focused on the needs of patients and clinicians,always with the greatest independence. The main research study is Biobadaderm,the Spanish registry of systemic treatments in psoriasis,whose objective is to analyze the safety of systemic treatments of psoriasis.
