## Institution description

Sence Research is an independent scientific analytical company in epidemiology (outcomes research). Our team consists of

epidemiologists, physicians, pharmacists and health economists, with active academic research. We are at the scientific frontline of comparative effectiveness research, have developed a novel pharmacoepidemiological model, and are devoted to continuous methodological improvement. Our aim is to bring sound scientific methods, transparency, accountability and timeliness to the post-marketing dialogue between pharmaceutical authorities and companies.

## Institution details

**Experience with collecting data directly from individual patients or respondents:**

Yes

---

**Interest in carrying out research that is funded by pharmaceutical companies:**

Yes
