Institution description

The Pharmacoepi Research Unit at the Dept Chronic Diseases,at the Norwegian Institute of Public Health (NIPH) is one of the largest pharmacoepi research entity in Norway with 8 fulltime research scientists. We have long experience in using Norwegian and Nordic high-quality population-based health registers in our research. NIPH run the Norwegian Prescription Database (NorPD),a nationwide prescription database and also has other nationwide health registers in-house,i.e. the Norwegian Medical Birth Registry,Cause of death registry and large population-based health surveys.
