Institution description

IQVIA is a global provider of advanced analytics, technology solutions and clinical research services to the life sciences industry dedicated to creating connections

that deliver innovations and actionable insights. As part of IQVIA, IQVIA-NL is specialized in the provision of RWE studies, pharmacoepidemiology and health outcomes. Our consultants develop methods for RWE study designs and execution combining secondary and primary data directly from patients and physicians.
Next to the RWE studies, IQVIA-NL is also specialized in methodological work as development of data quality frameworks and development of specific metadata fields and the population of metadata.

Institution details
