Yes

Institution description

P95 is a global provider of clinical trial services, epidemiology, and real-world evidence (RWE) solutions, with a specialized focus on vaccine development and infectious diseases. Founded in 2011, P95 has over 300 staff operating on 5 continents and providing tailored clinical research across over 30 countries.
For its epidemiology and RWE solutions, P95 has a large team of epidemiologists with the capacity to conduct and support all types of epidemiological and RWE studies, including:
1. Non-interventional studies on burden of disease, safety, effectiveness, healthcare resource utilisation, etc.
2. Primary data collection (feasibility, protocol development, investigator identification, data capture, transfer and storage, data and study site monitoring, analysis and reporting)
3. Services for secondary use of electronic health record (EHR) databases, and access to a wide range of databases on demand (including feasibility and fit-for-purpose assessment, protocol development, analysis and reporting)
4. Systematic literature reviews (SLRs)

Institution details

Experience with collecting data directly from individual patients or respondents:

Yes

Interest in carrying out research that is funded by pharmaceutical companies:

Yes
