Institution description

Cegedim Health Data (CHD) is part of the Cegedim Group, specialised in the Healthcare field worldwide. CHD provides Real World Data and Evidence to enable advancements in patient outcomes. CHD is able to provide data history of over 24 years and millions of anonymised Electronic Health Records immediately accessible from its THIN (The Health Improvement Network) European database to support RWD Evidence and Services to deliver the application of data, intelligence and insights. CHD proprietary data can be used by health authorities, academics, pharmaceutical companies and research organisations for healthcare research and analysis. So far, approximately 2,000 scientific papers have been published (https://www.the-health-improvement-network.com/resources-hub).

Institution details

Experience with collecting data directly from individual patients or respondents:

Yes

Interest in carrying out research that is funded by pharmaceutical companies:

No
