Institution description

Fortrea has more than 30 years of experience designing and executing Phase IV,pharmacovigilance,and real-world evidence (RWE) studies globally. We have deep expertise in epidemiology,study design,health economics and outcomes research,real-world data (RWD),safety,and patient-reported outcomes across all therapeutic areas in drugs and devices. We offer a full portfolio of services to provide innovative solutions for interventional studies,non-interventional studies,pragmatic trials,disease and drug registries,and database studies to examine efficacy/effectiveness and other clinical outcomes,quality of life and other patient-reported outcomes,safety,drug utilization,and healthcare resource use.
