Institution description

Galilee Medical Center is the second largest hospital north of Tel Aviv (Israel), with 763 beds, over 60 departments and approximately 3,300 dedicated employees serving a population of over 650,000 residents. Our centers of excellence, among others, include Maxillofacial Oral medicine, Genetics and Genomics, Neurosurgery and Cerebral angiography. Our innovative big data research largest potential is currently focus on hematology and ICU. Galilee Medical Center's innovation team is always exploring new paths and constantly searching for partners to walk hand in hand in our journey to lead medical innovation, promote breakthrough initiatives and foster big data research in Israel and Europe.
