Institution description

Teamit Institute is a research management organization specializing in the scientific management of pharmacoepidemiology, safety, and efficacy studies related to medications, medical devices, and vaccines, utilizing real-world evidence. We establish robust partnerships with diverse stakeholders across the public and private sectors within the health ecosystem, facilitating the conceptualization and execution of research and innovation initiatives grounded in real-world data. We adhere to pharmacovigilance standards in our research on medicines and vaccines, employing a quality management system that aligns with the rigorous standards of research. This system enhances process efficiency, ensures regulatory compliance, and upholds the quality requirements essential for medical research.
