## Institution description

AI Labs group S.L. is an european company that manufactures software as a medical device to aid healthcare practitioners and organizations in their clinical decision-making process, thus enhancing the efficiency and accuracy of care delivery.

The medical device currently developed consists of a clinical decision support tool, that is intended to be used in the clinical practice to care for patients with visible ICD classes. The medical device allows an automatic diagnosis, an automatic measurement of severity, smart referrals and treatment success prediction.
