Institution description

The European Interbalkan Medical Center (EIMC) is the largest, state-of-the-art, comprehensive private hospital in Southeastern Europe located in the northern part of the city of Thessaloniki. EIMC is a member of Athens Medical Group, the premier Healthcare Service provider in Greece. With indoor facilities of unique aesthetics and ergonomics, deployed over an area of 50,000 m², the European Interbalkan Medical Center has a 383-bed capacity, offering a wide range of ward rooms (three-bed, two-bed, one-bed, luxury, suites); further complimented by 18 fully equipped operating rooms and an Intensive Care Unit (ICU) of 21 beds.

Services:

The European Interbalkan Medical Center offers a full range of healthcare services. In addition to the General Hospital, the EIMC offers a Pediatric Clinic, a Maternity – Gynecological Clinic and ‘FIVI – Fertility & IVF Center’, the new, state-of-the-art, largest IVF unit in SE Europe. A Rehabilitation Center also operates within the hospital.

Associates include top physicians of all specializations, selected according to their scientific qualifications, professionalism and exactitude. Many have received training in the US, Germany and the UK, regularly participating in international medical conventions. Our specialists are active in the advancement of medicine and their respective fields, showcasing innovations in interventional cardiology, congenital heart disease, and brain embolization – to name a few of them.
