Institution description

The Danish Medicines Agency

- authorises and inspects pharmaceutical companies and licenses medicinal products in the Danish market
- monitors adverse reactions from medicinal products
- authorises clinical trials
- decides which medicines are eligible for reimbursement
- monitors medical devices available in Denmark and supervises adverse incidents involving medical devices
- appoints proprietary pharmacists, organises the pharmacy structure, and supervises pharmacies and retailers.

We perform most of our tasks in close cooperation with colleagues from regulatory authorities and organisations in the other EU countries.

At the DKMA the Data Analytics Center has been a data partner within Darwin EU since May 2024.

Institution details

Experience with collecting data directly from individual patients or respondents:

No
