Institution description

The Institute of Biostatistics and Analyses (IBA) is a spin-off company of the Masaryk University, with a share of ownership by Masaryk University.

The company focuses mainly on the areas of project management of clinical research, real-world evidence (RWE) projects, organisation and management of clinical trials, particularly non-interventional clinical trials and health registries. This main activity is complemented with other services such as market access support, cost-effectiveness analysis, pharmacovigilance, analysis of clinical data, development of tailored software products and graphic design.
