Institution description

The ReMuS Registry was established in 2013 by IMPULS Endowment Fund, which has been promoting activities in the field of therapy and research of demyelinating diseases, especially multiple sclerosis, since 2000. Since April 2024, the registry has been operated as a separate non-profit organisation - ReMuS, endowment fund (in Czech: "ReMuS, nadační fond").

Key objectives of the ReMuS Registry

1. To map the real situation of the disease in the Czech Republic

To provide up-to-date and reliable information on multiple sclerosis in the Czech Republic.

2. Create a comprehensive picture of the effectiveness of costly treatments

Assist in research and resource planning for effective treatment.

3. Assist in the research and development of new medicines nationally and globally

Collaborate with scientific institutions and pharmaceutical companies to develop new treatments.
