Institution description

The Office for Rare Conditions Registries, is a University of Glasgow project, based at Child Health, which focusses on the developemnt and operation of registries for rare conditions. The project team has been involved in rare disease registries for two decades.

Amongst its portfolio are :

- SDMregistries for people with conditions affecting sex development and maturation.
- GloBE-Reg, a registry which supports post authorisation studies for new therapies for bone and endocrine conditions.
