

# Portal da Hepatite C (Hepatitis C Portal)

**First published:** 04/03/2026

**Last updated:** 18/03/2026

Data source

Human

Disease registry

## Administrative details

### Administrative details

**Data source ID**

1000000928

---

**Data source acronym**

HEPC

---

**Data holder**

[INFARMED - National Authority of Medicines and Health Products, I.P.](#)

---

**Data source type**

Disease registry

---

**Main financial support**

National, regional, or municipal public funding

---

**Care setting**

Hospital inpatient care

Hospital outpatient care

---

### **Data source qualification**

If the data source has successfully undergone a formal qualification process (e.g., from the EMA, ISO or other certifications), this should be described.

No

---

### **Description of the qualification**

undefined

## Contact details

Cláudia Furtado [dipe@infarmed.pt](mailto:dipe@infarmed.pt)

Main

[dipe@infarmed.pt](mailto:dipe@infarmed.pt)

Mariane Cossito [dats@infarmed.pt](mailto:dats@infarmed.pt)

Alternate

[dats@infarmed.pt](mailto:dats@infarmed.pt)

## Data source regions and languages

### **Data source countries**

Portugal

---

### **Data source languages**

Portuguese

---

### **Data source regions**

Região Autónoma da Madeira

Região Autónoma dos Açores

Região Continental

## Data source establishment

### Data source established

10/11/2014

---

### Data source time span

**First collection:** 18/11/2014

The date when data started to be collected or extracted.

## Data elements collected

### The data source contains the following information

#### Disease information

Does the data source collect information with a focus on a specific disease? This might be a patient registry or other similar initiatives.

Yes

---

#### Disease details

Hepatitis C

---

#### Rare diseases

Are rare diseases captured? In the European Union a rare disease is one that affects no more than 5 people in 10,000.

No

---

### **Pregnancy and/or neonates**

Does the data source collect information on pregnant women and/or neonatal subpopulation (under 28 days of age)?

No

---

### **Hospital admission and/or discharge**

No

---

### **ICU admission**

Is information on intensive care unit admission available?

No

---

### **Cause of death**

Not Captured

---

### **Prescriptions of medicines**

Captured

---

### **Prescriptions vocabulary**

other

---

### **Prescriptions vocabulary, other**

Active ingredient(s)

---

### **Dispensing of medicines**

Not Captured

---

### **Advanced therapy medicinal products (ATMP)**

Is information on advanced therapy medicinal products included? A medicinal product for human use that is either a gene therapy medicinal product, a somatic cell therapy product or a tissue engineered products as defined in Regulation (EC) No 1394/2007 [Reg (EC) No 1394/2007 Art 1(1)].

No

---

### **Contraception**

Is information on the use of any type of contraception (oral, injectable, devices etc.) available?

No

---

### **Indication for use**

Does the data source capture information on the therapeutic indication for the use of medicinal products?

Not Captured

---

### **Medical devices**

Is information on medicinal devices (e.g., pens, syringes, inhalers) available?

No

---

### **Administration of vaccines**

No

---

### **Procedures**

Does the data source capture information on procedures (e.g., diagnostic tests, therapeutic, surgical interventions)?

Captured

---

### **Healthcare provider**

Is information on the person providing healthcare (e.g., physician, pharmacist, specialist) available?

The healthcare provider refers to individual health professionals or a health facility organisation licensed to provide health care diagnosis and treatment services including medication, surgery and medical devices.

No

---

## **Clinical measurements**

Is information on clinical measurements (e.g., BMI, blood pressure, height) available?

No

---

## **Genetic data**

Are data related to genotyping, genome sequencing available?

Captured

---

## **Biomarker data**

Does the data source capture biomarker information? The term “biomarker” refers to a broad subcategory of medical signs ( objective indications of medical state observed from outside the patient), which can be measured accurately and reproducibly. For example, haematological assays, infectious disease markers or metabolomic biomarkers.

Captured

---

## **Patient-reported outcomes**

Is information on patient-reported outcomes (e.g., quality of life) available?

No

---

## **Patient-generated data**

Is patient-generated information (e.g., from wearable devices) available?

No

---

## **Units of healthcare utilisation**

Are units of healthcare utilisation (e.g., number of visits to GP per year, number of hospital days) available or can they be derived? Units of healthcare utilisation refer to the quantification of the use of services for the purpose of preventing or curing health problems.

No

---

## **Unique identifier for persons**

Are patients uniquely identified in the data source?

Yes

---

## **Diagnostic codes**

Not Captured

---

## **Medicinal product information**

Captured

---

## **Medicinal product information collected**

Active ingredient(s)

---

## **Quality of life measurements**

Not Captured

---

## **Lifestyle factors**

Not Captured

---

## **Sociodemographic information**

Captured

---

## **Sociodemographic information collected**

Age

Gender

# Data flows and management

## Access and validation

### **Biospecimen access**

Are biospecimens available in the data source (e.g., tissue samples)?

No

---

### **Access to subject details**

Can individual patients/practitioners/practices included in the data source be contacted?

No

## Data source linkage

### **Linkage**

Is the data source described created by the linkage of other data sources (prelinked data source) and/or can the data source be linked to other data source on an ad-hoc basis?

No

## Data management specifications that apply for the data source

### **Possibility of data validation**

Can validity of the data in the data source be verified (e.g., access to original medical charts)?

No

---

### **Data source preservation**

Are records preserved in the data source indefinitely?

No

---

### **Approval for publication**

Is an approval needed for publishing the results of a study using the data source?

No

## Common Data Model (CDM) mapping

## **CDM mapping**

Has the data source been converted (ETL-ed) to a common data model?

No
