Institution description

The Castelo Branco Local Health Unit (ULSCB) is a beacon of healthcare excellence in Portugal, providing comprehensive and inclusive care for the region of Beira Baixa. Over more than two decades, ULSCB has established itself as a cornerstone of health provision and academic center within the National Health System (NHS), catering to a diverse patient population with unwavering dedication and commitment.

ULSCB stands out for its holistic approach, encompassing primary care and hospital services, in a people-centered approach, ensuring that patients receive personalized care and attention. Despite the challenges posed by an aging population and high prevalence of chronic illnesses, ULSCB remains dedicated to delivering quality healthcare services and constantly learning and evolving to enhance the well-being of the community it serves.

The institution's mission aligns with the core principles of the National Health System, aiming to provide universal healthcare coverage to the Portuguese population. Its expansive reach covers a challenging landscape consisting of a mixed urban and rural area of over 5,000 km², that allows the pioneering of innovative care solutions.

ULSCB's unwavering commitment to health excellence, inclusive approach to healthcare provision, and a rich, extensive record-keeping, make it a vital and esteemed pillar in the regional health landscape, positively impacting the lives of those it serves.
