Network description

In January 2015 the FP-MCRN was formed and established as ONLUS (No-Profit Association) with its new statute and its organization. The Network involves the Italian Family Paediatricians (FP) from 20 Italian Regions on the whole Italian territory. Every FP takes care of 900- 1000 children and follows them from birth to 14 years of age. For this reason the FPs can survey more than 7.000.000 Italian children . The FP constitutes a point of important reference for the families with

which he establishes a riliable relationship of trusts. The characteristics of the FP-MRCN1) Family Paediatricians,Primary Care
