

## Short CV - Marco Tuccori PhD

Place and date of birth: Lucca, January 31<sup>st</sup>, 1976

Graduation: Degree with Honours at School of Pharmacy, University of Pisa (November, 2001)

Present position: Pharmacovigilance Head, Unit of adverse drug reaction monitoring, University Hospital of Pisa (August 2009);

Previous position: Fellow, Unit of Pharmacology, University Hospital of Pisa (January, 2009)

Post Graduation Education: 1. Post Graduate School of Pharmacology, University of Pisa (November, 2005); 2. Master II Level in Clinical Investigation and Development of Drugs, University of Pisa (December, 2005); 3. Master II Level in Pharmacovigilance, University of Florence (April, 2009), 4. PhD in Pharmacology and Medical Physiology, University of Pisa (July, 2011); Post-doctoral fellowship in Pharmacoepidemiology: Montreal, McGill University - (April 2015 – October 2015)

Previous personal experience: 1. Fellowship issued by the Italian Society of Pharmacology for Pharmacovigilance activities at the Interdepartmental Center for Research in Clinical Pharmacology and Experimental Therapeutics, University of Pisa, July 2002 - November 2004); 2. Fellowship for Pharmacovigilance activities issued by the Interdepartmental Center for Research in Clinical Pharmacology and Experimental Therapeutics, University of Pisa (December 2004 – December 2005); 3. Fellowship for Pharmacovigilance activities issued by the University Hospital of Pisa at the Pharmacology Unit (January 2005 – December 2008); 4. Intensive Course in Epidemiology and Medical Statistics. London School of Hygiene and Tropical Medicine, University College of London – London (23<sup>rd</sup> June – 11<sup>th</sup> July, 2008); 5. Eudravigilance User Training Course Certificate – European Medicinal Agency (EMA), London 17<sup>th</sup> – 19<sup>th</sup> February, 2010

Main Field of Scientific Research: Pharmacovigilance and Drug Safety

Main Topic of Scientific Research: 1. Systems for spontaneous reporting of adverse drug reactions (ADRs); 2. Signal detection from spontaneous ADRs reporting database using methods of disproportion; 3. Single case and case series of ADR reporting; 4) Pharmacoepidemiology and observational studies; 5) big data and real world evidence;

Publications: 80 articles in peer reviewed scientific journals reported in JCR-ISI archives; 5 book chapters

Scientific Societies: 1. Italian Society of Pharmacology; 2. International Society of Pharmacovigilance (coordinator ISoP Italian Chapter since March 2011, member of the ISoP EC from November 2012 to November 2016; member of the ISoP advisory board from November 2016)

11/04/2019
