Scientific Advisory Board (SAB)

The Scientific Advisory Board (SAB), with consultative functions, will be formed by independent experts external to the project, so that the expertise and knowledge necessary to assist the SC on scientific and technical grounds are gathered. Independent external experts will be asked to sign an agreement to ensure confidentiality within the SAB. There will be 2 fixed SAB members, who will be selectively complemented by other experts during the project's development depending on the issues to be discussed. The SAB will normally meet once per year and decision making procedures will follow the same mechanisms as in the PSC.

- **Dr. June Rain:** MHRA, chair of the Pharmacovigilance Working Party of the European Medicines Agency
- **Prof. dr. J van der Lei:** head of the Department of Medical Informatics, Erasmus Universitair Medisch Centrum Rotterdam
